

## Printer Server support

The following models support USB port- and parallel port-based printers for convenient printing applications. We don't suggest you use two printers at the same time on one router and ASUS routers don't support multi-functional printers or it supports the printing function only if any. Note: the printer type not shown on the website doesn't mean we don't support it but means we didn't do the compatibility test toward this model. The printer list below is for your reference only.

If you have any doubts or advice toward this printer list, please contact our support engineer at <http://support.asus.com/techserv/techserv.aspx>

Check the number of USB port & parallel port on each model:

Model	USB port	Parallel port
<a href="#">WL-500b</a>	1	1
<a href="#">WL-500g</a>	1	1
<a href="#">WL-500g Deluxe</a>	2	0
<a href="#">WL-500gP V2</a>	2	0
<a href="#">WL-500W</a>	2	0
<a href="#">WL-500gP/ WL-500gP Premium</a>	2	0
<a href="#">WL-520gU</a>	1	0
<a href="#">WL-600g</a>	2	0
<a href="#">WL-700gE</a>	3	0

For model: WL700gE, WL-600g, WL-500gP, WL-500W, WL-520gU

means it work well

means it have some problems in special case.

1: Printer support, but the printer is easy to disappear. When using, USB should be drawn out and inserted again, and client should be installed again.

2: means it works well, but "Canon MF4100 Series" is not shown when setting up.

means it didn't work.
